

EUROPEAN VETERAN OUTDOORS RECORDS 2010

compiled by Ivar Söderlind, statistician of EVAA (08.07.2010)

In 2010, up to July 08, I have noted 26 new or modified European outdoor records stadia and 15 of these records also are world records. 16 of the 26 records are brought in 2010.

I have changed in the Record Lists because of new equipments, weights, hurdles distances etc. from May 1 2010. WMA's decided changes in the rules for veterans were then implemented. In K70+ and M80+, 300m hurdles have been replaced by 200 m hurdles (hurdle height 68.6 cm). In the European Record Lists we will present both old records (in 300m hurdles) and the new records (in 200m hurdles). In K75+ the weight in Shot Put and Hammer dropped from 3.0 kg to 2.0 kg and in weight throw it dropped from 5.45 to 4.0 kg. The old records in these throw events will be left up until it is better results with the new weights.

In M60-M65, we have (since 2009) new hurdles distance of 60m hurdles indoor and 100m hurdles outdoor (12.00 meters from the start to the first hurdle and 16.00 meters from the last hurdles to the goal).

This time I do not present any Record Lists for Combined Events. From May 1 2010 we have new age factors for scoring of Combined Events (Throw Pentathlon, Pentathlon, Heptathlon and Decathlon). I and Ove Edlund, my statistician colleague in Sweden, work hard with new European Record Lists for all these multievents and hope to have them ready later in July.

I have had very good assistance with the Running from Ken Young, USA, member of the Association of Road Racing Statisticians (ARRS), and with the Road Walk Records from Birger Fält, Sweden, member of ARRS and coordinator of the Race Walking Group. I have also found many results in "All Time World Rankings - Master Athletics" which I have checked with Ken and Birger. (<http://www.mastersathletics.net/All-Time-Rankings-Track-and-Field-Master.365.0.html>)

When two or more results are noted in one age group and event the first noted result is the official record if it is missing some tasks for the second result. Only results with all tasks reported (Birth Date, Date and Place for the Competition etc) are approved as official records. For 100m, 200m, the short hurdle distances, long jump and triple jump outdoors only results reached with up to 2.0 m/sec are accepted (wind-gauge is definitely necessary)!

I have noted if the European Records in this list are Official World Records or better than the Official World Records. Notice that EVAA has decided that only events which are in the program for European Championships will be in the Record List (with exception of 3000m). In 1999 and 2000 we have new javelins in many age groups. In the Record lists I present the records with the new javelin and also the old records with the old javelin if they are better than the new ones. In 2000 we also had new hurdle height 68.6 cm for short and long hurdles in the oldest age groups. The old records with hurdle height 76.2 cm will be left up until it is better results with the lower hurdles (and the same distances between the hurdles). In some Champion Ships wind gauge has been used but in the official result lists it was only noted if the wind was correct or not. (c = correct wind; up to 2.0 m/sec).

***New or modified Records in 2010**
