

EUROPEAN BEST PERFORMANCES NONSTADIA - ROAD RUN AND ROAD WALK 2011

compiled by Ivar Söderlind, statistician of EVAA (01.11.2011)

In 2011, up to November 1, I have noted 22 new or modified European Best Performance (11 World Best) in Nonstadia events.

I have had very good assistance with the Road Run Records from Ken Young, USA, member of the Association of Road Racing Statisticians (ARRS) and with the Road Walk Records from Birger Fält, Sweden, member of ARRS and coordinator of the Race Walking Group. I have also found many results in "All Time World Rankings - Master Athletics" which I have checked with Ken and Birger. (<http://www.mastersathletics.net/All-Time-Rankings-Track-and-Field-Master.365.0.html>)

IAAF has decided that Official Records shall be noted for Road Run and Road Walk. As it often is uncertain when and in which way official measurement of road distances is realized, especially in former Road Competitions, we continue with Best Performance in this European List. The problem of correct measurement is difficult especially in 10 km Road Run and in the Road Walk distances. We will discuss this matter more in WMA and EVAA. Some of the results for Road Walk in my earlier Record Lists are from Track Walk. The competitions in this list are 10 km run (road), Half Marathon, Marathon and Road Walk 10 km, 20 Km and 30 km (distances in European Championships). When two or more results are noted in one age group and event the first noted result is the official best performance.

In M90 Marathon and M95 Half Marathon I have Best Performances for Fauja Singh, GBR. However I have been informed that it can be some uncertainty of his date of birth. I am now checking this matter.

I ask you to check the list given below and make it more complete. Please alter or complete in the list and send it to me as soon as possible. You must report all new Best Performances by a Record Application (preferably EVAA:s or WMA:s Record Application)!!

Welcome to the Official EVAA Web Site: www.evaa.ch

WB = World Best

*** = modified or new Best Performance in 2011**

a = the road distance is not reliably measured

b = the road distance is a point-to-point course

c = the road distance is downhill

d = wrong intermediate time

e = track walk not road walk

f = the runner has, according to the results list from the race, not performed this result

g)= not yet officially approved record, some data is missing

10 km road run
